

Release note for version 3.2 of the EU VNeS Specification (Nov 2024)

Section of the document	Change
7.(a) General considerations	The update provides more detailed recommendations within the VNeS guidance on the <u>structure of submissions within the Subsequent Recognition Procedure (SRP)</u> :
7.(b) Folder structure for initial Marketing Authorisation Application	A new Table 10 is included specifying a recommended subfolder structure for the original documentation in the add-info folder. Please note that the subfolder structure is not subject to technical validation.
NEW TABLE 10	The guidance on SRP is now consolidated at a single place, as it integrates the response to the question 4.6. "How should a Subsequent Recognition Procedure application be structured?" of the VHG General FAQ relating to e-Submission for Veterinary Applications as of June 2023. The latter document is revised in parallel as Q&A 4.6 is now deleted.
